May - 2022 Training Agenda

by

IoT Specialists of GAO RFID Inc.

This training program is offered by IoT specialists of GAO RFID Inc. and is a part of TekSummit.

The training sessions are free to all attendees, same as other TekSummit presentations and trainings.

Professional Training Certificates shall be issued at no charge to practising professionals who take the training. University students are welcome to take the training but shall not be offered such certificates.

For any inquiry on GAO's IoT products and services and on this training program, including Professional Training Certificates, please contact IoT-Specialists@GAORFID.com

This agenda is updated constantly and there may be even changes at the last minute. Please always use the latest version. This agenda was updated on April 18, 2022.

May 2, 2022, Monday

Asset Tracking Using BLE or RFID
- Standalone, With Servers or Cloud
By IoT Specialists of GAO RFID Inc.

Targeted audience: tech executives, managers and staff, operations executives, managers and staff.

10:00 am to 10:30 am EDT (New York Time)

Personnel Tracking Using BLE or RFID
- Standalone, With Servers or Cloud
By IoT Specialists of GAO RFID Inc.

Targeted audience: tech executives, managers and staff, operations executives, managers and staff.

10:30 am to 11:00 am EDT (New York Time)

Supply Chain & Logistics Management Using BLE or RFID
- Standalone, With Servers or Cloud
By IoT Specialists of GAO RFID Inc.

Targeted audience: tech executives, managers and staff, operations executives, managers and staff.

11:00 am to 11:30 am EDT (New York Time)

May 3, 2022, Tuesday

Asset Tracking in Healthcare Using BLE or RFID
- Standalone, With Servers or Cloud
By IoT Specialists of GAO RFID Inc.

Targeted audience: tech executives, managers and staff, operations executives, managers and staff.

10:00 am to 10:30 am EDT (New York Time)

Personnel Tracking in Healthcare Using BLE or RFID
- Standalone, With Servers or Cloud
By IoT Specialists of GAO RFID Inc.

Targeted audience: tech executives, managers and staff, operations executives, managers and staff.

10:30 am to 11:00 am EDT (New York Time)

Supply Chain & Logistics Management in Healthcare Using BLE or RFID
- Standalone, With Servers or Cloud
By IoT Specialists of GAO RFID Inc.

Targeted audience: tech executives, managers and staff, operations executives, managers and staff.

11:00 am to 11:30 am EDT (New York Time)

May 4, 2022, Wednesday

Asset Tracking in Automotive Manufacturing Using BLE or RFID
- Standalone, With Servers or Cloud
By IoT Specialists of GAO RFID Inc.

Targeted audience: tech executives, managers and staff, operations executives, managers and staff.

10:00 am to 10:30 am EDT (New York Time)

Personnel Tracking in Automotive Manufacturing Using BLE or RFID
- Standalone, With Servers or Cloud
By IoT Specialists of GAO RFID Inc.

Targeted audience: tech managers & staff, operations managers & staff, other managers & staff.

10:30 am to 11:00 am EDT (New York Time)

Supply Chain & Logistics Management in Automotive Manufacturing Using BLE or RFID
- Standalone, With Servers or Cloud
By IoT Specialists of GAO RFID Inc.

Targeted audience: tech managers & staff, operations managers & staff, other managers & staff.

11:00 am to 11:30 am EDT (New York Time)

May 5, 2022, Thursday

Asset Tracking in Oil & Gas Industry Using BLE or RFID

- Standalone, With Servers or Cloud
By IoT Specialists of GAO RFID Inc.

Targeted audience: tech managers & staff, operations managers & staff, other managers & staff.

10:00 am to 10:30 am EDT (New York Time)

Personnel Tracking in Oil & Gas Industry Using BLE or RFID
- Standalone, With Servers or Cloud
By IoT Specialists of GAO RFID Inc.

Targeted audience: tech managers & staff, operations managers & staff, other managers & staff.

10:30 am to 11:00 am EDT (New York Time)

Supply Chain & Logistics Management in Oil & Gas Industry Using BLE or RFID
- Standalone, With Servers or Cloud
By IoT Specialists of GAO RFID Inc.

Targeted audience: tech managers & staff, operations managers & staff, other managers & staff.

11:00 am to 11:30 am EDT (New York Time)

May 6, 2022, Friday

Asset Tracking in Food Manufacturing Using BLE or RFID
- Standalone, With Servers or Cloud
By IoT Specialists of GAO RFID Inc.

Targeted audience: tech managers & staff, operations managers & staff, other managers & staff.

10:00 am to 10:30 am EDT (New York Time)

Personnel Tracking in Food Manufacturing Using BLE or RFID
- Standalone, With Servers or Cloud
By IoT Specialists of GAO RFID Inc.

Targeted audience: tech managers & staff, operations managers & staff, other managers & staff.

10:30 am to 11:00 am EDT (New York Time)

Supply Chain & Logistics Management in Food Manufacturing Using BLE or RFID
- Standalone, With Servers or Cloud
By IoT Specialists of GAO RFID Inc.

Targeted audience: tech managers & staff, operations managers & staff, other managers & staff.

11:00 am to 11:30 am EDT (New York Time)

May 9, 2022, Monday

Asset Tracking in Civil Engineering & Roads Construction Using BLE or RFID
- Standalone, With Servers or Cloud
By IoT Specialists of GAO RFID Inc.

Targeted audience: tech managers & staff, operations managers & staff, other managers & staff.

10:00 am to 10:30 am EDT (New York Time)

Personnel Tracking in Civil Engineering & Roads Construction Using BLE or RFID
- Standalone, With Servers or Cloud
By IoT Specialists of GAO RFID Inc.

Targeted audience: tech managers & staff, operations managers & staff, other managers & staff.

10:30 am to 11:00 am EDT (New York Time)

Supply Chain & Logistics Managementin Civil Engineering & Roads Construction Using BLE or RFID
- Standalone, With Servers or Cloud

By IoT Specialists of GAO RFID Inc.

Targeted audience: tech managers & staff, operations managers & staff, other managers & staff.

11:00 am to 11:30 am EDT (New York Time)

May 10, 2022, Tuesday

Asset Tracking in Institutional & Commercial Construction Using BLE or RFID
- Standalone, With Servers or Cloud
By IoT Specialists of GAO RFID Inc.

Targeted audience: tech managers & staff, operations managers & staff, other managers & staff.

10:00 am to 10:30 am EDT (New York Time)

Personnel Tracking in Institutional & Commercial Construction Using BLE or RFID
- Standalone, With Servers or Cloud
By IoT Specialists of GAO RFID Inc.

Targeted audience: tech managers & staff, operations managers & staff, other managers & staff.

10:30 am to 11:00 am EDT (New York Time)

Supply Chain & Logistics Managementin Institutional & Commercial Construction Using BLE or RFID
- Standalone, With Servers or Cloud
By IoT Specialists of GAO RFID Inc.

Targeted audience: tech managers & staff, operations managers & staff, other managers & staff.

11:00 am to 11:30 am EDT (New York Time)

May 11, 2022, Wednesday

BLE for Navigation/Positioning
　　　By IoT Specialists of GAO RFID Inc.

Targeted audience: tech managers & staff, operations managers & staff, other managers & staff.

10:00 am to 10:30 am EDT (New York Time)

BLE for Navigation/Positioning for Offices
　　　By IoT Specialists of GAO RFID Inc.

Targeted audience: tech managers & staff, operations managers & staff, other managers & staff.

10:30 am to 11:00 am EDT (New York Time)

Access Control Using BLE or RFID
　　- Standalone, With Servers or Cloud
　　　By IoT Specialists of GAO RFID Inc.

Targeted audience: tech managers & staff, operations managers & staff, other managers & staff.

11:00 am to 11:30 am EDT (New York Time)

May 12, 2022, Thursday

Parking Systems Using BLE or RFID
　　- Standalone, With Servers or Cloud
　　　By IoT Specialists of GAO RFID Inc.

Targeted audience: tech managers & staff, operations managers & staff, other managers & staff.

10:00 am to 10:30 am EDT (New York Time)

Inventory Management Using BLE or RFID

- Standalone, With Servers or Cloud
By IoT Specialists of GAO RFID Inc.

Targeted audience: tech managers & staff, operations managers & staff, other managers & staff.

10:30 am to 11:00 am EDT (New York Time)

Pet & Livestock Tracking Using BLE or RFID
- Standalone, With Servers or Cloud
By IoT Specialists of GAO RFID Inc.

Targeted audience: tech managers & staff, operations managers & staff, other managers & staff.

11:00 am to 11:30 am EDT (New York Time)

May 13, 2022, Friday

Car Rental Using BLE or RFID
- Standalone, With Servers or Cloud
By IoT Specialists of GAO RFID Inc.

Targeted audience: tech managers & staff, operations managers & staff, other managers & staff.

10:00 am to 10:30 am EDT (New York Time)

Vehicle Tracking Using BLE or RFID
- Standalone, With Servers or Cloud
By IoT Specialists of GAO RFID Inc.

Targeted audience: tech managers & staff, operations managers & staff, other managers & staff.

10:30 am to 11:00 am EDT (New York Time)

Car Sharing Using BLE or RFID
- Standalone, With Servers or Cloud
By IoT Specialists of GAO RFID Inc.

Targeted audience: tech managers & staff, operations managers & staff, other managers & staff.

11:00 am to 11:30 am EDT (New York Time)

May 16, 2022, Monday

Mustering Using BLE or RFID
- Standalone, With Servers or Cloud
By IoT Specialists of GAO RFID Inc.

Targeted audience: tech managers & staff, operations managers & staff, other managers & staff.

10:00 am to 10:30 am EDT (New York Time)

Specimen Tracking Using BLE or RFID
- Standalone, With Servers or Cloud
By IoT Specialists of GAO RFID Inc.

Targeted audience: tech managers & staff, operations managers & staff, other managers & staff.

10:30 am to 11:00 am EDT (New York Time)

BLE for Navigation/Positioning
By IoT Specialists of GAO RFID Inc.

Targeted audience: tech managers & staff, operations managers & staff, other managers & staff.

11:00 am to 11:30 am EDT (New York Time)

May 17, 2022, Tuesday

BLE for Navigation/Positioning for Arts
By IoT Specialists of GAO RFID Inc.

Targeted audience: tech managers & staff, operations managers & staff, other managers & staff.

10:00 am to 10:30 am EDT (New York Time)

RFID for Cabinets
By IoT Specialists of GAO RFID Inc.

Targeted audience: tech managers & staff, operations managers & staff, other managers & staff.

10:30 am to 11:00 am EDT (New York Time)

RFID for Race Timing
By IoT Specialists of GAO RFID Inc.

Targeted audience: tech managers & staff, operations managers & staff, other managers & staff.

11:00 am to 11:30 am EDT (New York Time)

May 18, 2022, Wednesday

Asset Tracking in Residential Construction Using BLE or RFID W - Standalone, With Servers or Cloud
By IoT Specialists of GAO RFID Inc.

Targeted audience: tech managers & staff, operations managers & staff, other managers & staff.

10:00 am to 10:30 am EDT (New York Time)

Personnel Tracking in Residential Construction Using BLE or RFID W - Standalone, With Servers or Cloud
By IoT Specialists of GAO RFID Inc.

Targeted audience: tech managers & staff, operations managers & staff, other managers & staff.

10:30 am to 11:00 am EDT (New York Time)

Packaging & Handling Using BLE or RFID

By IoT Specialists of GAO RFID Inc.

Targeted audience: tech managers & staff, operations managers & staff, other managers & staff.

11:00 am to 11:30 am EDT (New York Time)

May 19, 2022, Thursday

Asset Tracking in Manufacturing Using BLE or RFID
- Standalone, With Servers or Cloud
By IoT Specialists of GAO RFID Inc.

Targeted audience: tech managers & staff, operations managers & staff, other managers & staff.

10:00 am to 10:30 am EDT (New York Time)

Personnel Tracking in Manufacturing Using BLE or RFID
- Standalone, With Servers or Cloud
By IoT Specialists of GAO RFID Inc.

Targeted audience: tech managers & staff, operations managers & staff, other managers & staff.

10:30 am to 11:00 am EDT (New York Time)

Supply Chain & Logistics Management in Manufacturing Using BLE or RFID
- Standalone, With Servers or Cloud
By IoT Specialists of GAO RFID Inc.

Targeted audience: tech managers & staff, operations managers & staff, other managers & staff.

11:00 am to 11:30 am EDT (New York Time)

Returnable Item Tracking Using BLE or RFID
- Standalone, With Servers or Cloud
By IoT Specialists of GAO RFID Inc.

Targeted audience: tech managers & staff, operations managers & staff, other managers & staff.

11:30 am to 12:00 pm EDT (New York Time)

May 20, 2022, Friday

Asset Tracking in Agriculture Using BLE or RFID
- Standalone, With Servers or Cloud
By IoT Specialists of GAO RFID Inc.

Targeted audience: tech managers & staff, operations managers & staff, other managers & staff.

10:00 am to 10:30 am EDT (New York Time)

Personnel Tracking in Agriculture Using BLE or RFID
- Standalone, With Servers or Cloud
By IoT Specialists of GAO RFID Inc.

Targeted audience: tech managers & staff, operations managers & staff, other managers & staff.

10:30 am to 11:00 am EDT (New York Time)

Supply Chain & Logistics Management Using BLE or RFID
- Standalone, With Servers or Cloud
By IoT Specialists of GAO RFID Inc.

Targeted audience: tech managers & staff, operations managers & staff, other managers & staff.

11:00 am to 11:30 am EDT (New York Time)

Document Tracking Using BLE or RFID
- Standalone, With Servers or Cloud
By IoT Specialists of GAO RFID Inc.

Targeted audience: tech managers & staff, operations managers & staff, other managers & staff.

11:30 am to 12:00 pm EDT (New York Time)

BLE Navigation/Positioning for Visitors

By IoT Specialists of GAO RFID Inc.

Targeted audience: tech managers & staff, operations managers & staff, other managers & staff.

10:00 am to 10:30 am EDT (New York Time)

BLE Navigation/Positioning for Hospitals

By IoT Specialists of GAO RFID Inc.

Targeted audience: tech managers & staff, operations managers & staff, other managers & staff.

10:30 am to 11:00 am EDT (New York Time)

BLE Navigation/Positioning for Company Premises

By IoT Specialists of GAO RFID Inc.

Targeted audience: tech managers & staff, operations managers & staff, other managers & staff.

11:00 am to 11:30 am EDT (New York Time)

Cold Chain Management Using BLE & RFID

By IoT Specialists of GAO RFID Inc.

Targeted audience: tech managers & staff, operations managers & staff, other managers & staff.

11:30 am to 12:00 pm EDT (New York Time)

May 24, 2022, Tuesday

BLE Navigation/Positioning for Advertising/Marketing

By IoT Specialists of GAO RFID Inc.

Targeted audience: tech managers & staff, operations managers & staff, other managers & staff.

10:00 am to 10:30 am EDT (New York Time)

BLE Navigation/Positioning for Airports

By IoT Specialists of GAO RFID Inc.

Targeted audience: tech managers & staff, operations managers & staff, other managers & staff.

10:30 am to 11:00 am EDT (New York Time)

BLE for Navigation/Positioning for Shopping Malls

By IoT Specialists of GAO RFID Inc.

Targeted audience: tech managers & staff, operations managers & staff, other managers & staff.

11:00 am to 11:30 am EDT (New York Time)

Industry 4.0 Using BLE or RFID
- Standalone, With Servers or Cloud

By IoT Specialists of GAO RFID Inc.

Targeted audience: tech managers & staff, operations managers & staff, other managers & staff.

11:30 am to 12:00 pm EDT (New York Time)

May 25, 2022, Wednesday

Asset Tracking in Education, Banking & Government Institutions Using BLE or RFID
- Standalone, With Servers or Cloud

By IoT Specialists of GAO RFID Inc.

Targeted audience: tech managers & staff, operations managers & staff, other managers & staff.

10:00 am to 10:30 am EDT (New York Time)

Personnel Tracking in Education, Banking & Government Institutions Using BLE or RFID
- Standalone, With Servers or Cloud

By IoT Specialists of GAO RFID Inc.

Targeted audience: tech managers & staff, operations managers & staff, other managers & staff.

10:30 am to 11:00 am EDT (New York Time)

Supply Chain & Logistics Management Using BLE or RFID
- Standalone, With Servers or Cloud

By IoT Specialists of GAO RFID Inc.

Targeted audience: tech managers & staff, operations managers & staff, other managers & staff.

11:00 am to 11:30 am EDT (New York Time)

Tire Management Using BLE or RFID
- Standalone, With Servers or Cloud

By IoT Specialists of GAO RFID Inc.

Targeted audience: tech managers & staff, operations managers & staff, other managers & staff.

11:30 am to 12:00 pm EDT (New York Time)

May 26, 2022, Thursday

Asset Tracking in IT Industry Using BLE or RFID
- Standalone, With Servers or Cloud

By IoT Specialists of GAO RFID Inc.

Targeted audience: tech managers & staff, operations managers & staff, other managers & staff.

10:00 am to 10:30 am EDT (New York Time)

Personnel Tracking in IT Industry Using BLE or RFID
- Standalone, With Servers or Cloud

By IoT Specialists of GAO RFID Inc.

Targeted audience: tech managers & staff, operations managers & staff, other managers & staff.

10:30 am to 11:00 am EDT (New York Time)

Supply Chain & Logistics Management Using BLE or RFID
- Standalone, With Servers or Cloud

By IoT Specialists of GAO RFID Inc.

Targeted audience: tech managers & staff, operations managers & staff, other managers & staff.

11:00 am to 11:30 am EDT (New York Time)

Laundry Management Using BLE or RFID
- Standalone, With Servers or Cloud

By IoT Specialists of GAO RFID Inc.
Targeted audience: tech managers & staff, operations managers & staff, other managers & staff.

11:30 am to 12:00 pm EDT (New York Time)

May 27, 2022, Friday

Asset Tracking in Mining Using BLE or RFID
- Standalone, With Servers or Cloud

By IoT Specialists of GAO RFID Inc.

Targeted audience: tech managers & staff, operations managers & staff, other managers & staff.

10:00 am to 10:30 am EDT (New York Time)

Personnel Tracking in Mining Using BLE or RFID
- Standalone, With Servers or Cloud

By IoT Specialists of GAO RFID Inc.

Targeted audience: tech managers & staff, operations managers & staff, other managers & staff.

10:30 am to 11:00 am EDT (New York Time)

Supply Chain & Logistics Management in Mining Using BLE or RFID
- Standalone, With Servers or Cloud

By IoT Specialists of GAO RFID Inc.

Targeted audience: tech managers & staff, operations managers & staff, other managers & staff.

11:00 am to 11:30 am EDT (New York Time)

Traceability of Foods & Related Products Using BLE or RFID
- Standalone, With Servers or Cloud

By IoT Specialists of GAO RFID Inc.

Targeted audience: tech managers & staff, operations managers & staff, other managers & staff.

11:30 am to 12:00 pm EDT (New York Time)

May 30, 2022, Monday

Asset Tracking in Industrial Construction Using BLE or RFID
- Standalone, With Servers or Cloud

By IoT Specialists of GAO RFID Inc.

Targeted audience: tech managers & staff, operations managers & staff, other managers & staff.

10:00 am to 10:30 am EDT (New York Time)

Personnel Tracking in Industrial Construction Using BLE or RFID
- Standalone, With Servers or Cloud

By IoT Specialists of GAO RFID Inc.

Targeted audience: tech managers & staff, operations managers & staff, other managers & staff.

10:30 am to 11:00 am EDT (New York Time)

Supply Chain & Logistics Management in Industrial Construction Using BLE or RFID
- Standalone, With Servers or Cloud

By IoT Specialists of GAO RFID Inc.

Targeted audience: tech managers & staff, operations managers & staff, other managers & staff.

11:00 am to 11:30 am EDT (New York Time)

Traceability of Pharmaceutical & Medical Products Using BLE or RFID - Standalone, With Servers or Cloud

By IoT Specialists of GAO RFID Inc.

Targeted audience: tech managers & staff, operations managers & staff, other managers & staff.

11:30 am to 12:00 pm EDT (New York Time)

May 31, 2022, Tuesday

Asset Tracking in Utility Industry Using BLE or RFID - Standalone, With Servers or Cloud

By IoT Specialists of GAO RFID Inc.

Targeted audience: tech managers & staff, operations managers & staff, other managers & staff.

10:00 am to 10:30 am EDT (New York Time)

Personnel Tracking in Utility Industry Using BLE or RFID - Standalone, With Servers or Cloud

By IoT Specialists of GAO RFID Inc.

Targeted audience: tech managers & staff, operations managers & staff, other managers & staff.

10:30 am to 11:00 am EDT (New York Time)

Supply Chain & Logistics Management Using BLE or RFID - Standalone, With Servers or Cloud

By IoT Specialists of GAO RFID Inc.

Targeted audience: tech managers & staff, operations managers & staff, other managers & staff.

11:00 am to 11:30 am EDT (New York Time)

Counterfeiting Prevention Using BLE or RFID - Standalone, With Servers or Cloud

By IoT Specialists of GAO RFID Inc.

Targeted audience: tech managers & staff, operations managers & staff, other managers & staff.

11:30 am to 12:00 pm EDT (New York Time)
